

# FireOne 2019 Master Class Announcement

April 15 thru 19, 2019

FireOne's 2019 Master Class will convene in State College, Pennsylvania on Monday April 15, ending on Friday April 19 2019.

These sessions are applicable to display designers, field technicians and operations managers. This definitive event will feature first person, hands on instruction from the team that designs and creates hardware and software for the FireOne System.

The training class will emphasize an individual "hands-on" immersive environment that will progress from basic system operation to advanced operational techniques. Topics will include:

- FireOne System Operation: Wired and Wireless
- Standard, Ultrafire and Advanced Operation
- Synchronization Techniques Including FireOne's Time Machine
- GPS Synchronization Techniques (Even inside buildings)
- Advanced System Configuration Testing and Verification
- Multi-Site Control and Complex Linked System for World Class Displays
- Troubleshooting with Maintenance and Repair
- Case Studies and many additional subjects
- New *FireOne Design Studio* Choreography Software Instruction with comprehensive Inventory Management

Pricing does not include travel expenses or hotel accommodations, although we have reserved a block of hotel rooms located in the conference center for your convenience. Daily lunch is included in the cost of your registration and will be provided on-site.

We would be pleased to add you to our list of international participants. As with our previous classes, we expect to reach maximum registration quickly. If you plan to attend, please submit the official registration form via [info@fireone.com](mailto:info@fireone.com) and indicate your method of payment.

\$1895.00 per attendee.

\$1795.00 for registrations received prior to January 31<sup>st</sup>

\$1695.00 for multiple attendees from same company.

Upon receipt of your payment we will confirm your registration. Questions: Please contact us at [info@fireone.com](mailto:info@fireone.com)
