delighted to announce the...

# “FireOne Master Class”

April 15<sup>th</sup> to 19<sup>th</sup>, 2019

*To be held at a venue in  
State College, Pennsylvania, USA*

This five day, immersive, hands-on practical training course will cover all aspects of FireOne hardware and software, and is suitable for display designers, senior technicians and operations managers

This authoritative event will feature first person instruction by the team that design and create hardware and software for the FireOne System. Participants will receive “Recognized Accreditation” for their attendance

Please register your interest as soon as possible by e-mailing your details to [darin@fireone.com](mailto:darin@fireone.com). Note that the number of attendees is strictly limited to ensure quality course delivery. Places will be assigned on a first-come, first-served basis

Price dependent upon booking date and company attendee count
